

Package ‘docreview’

August 17, 2021

Title Opinionated Documentation Checking

Version 0.0.1

Description High quality documentation can make for a great experience for your users. You can use 'docreview' to check that your R package documentation passes a number of configurable checks relating to documentation content.

R topics documented:

function_review	2
get_config	2
package_review	3
vignette_review	3

Index	4
--------------	----------

function_review	<i>Review functions</i>
-----------------	-------------------------

Description

Review functions

Usage

```
function_review(path, checks = get_config())$functions)
```

Arguments

path	Path to package
checks	Checks to run

get_config	<i>Set config for docreview checks</i>
------------	--

Description

Set config for docreview checks

Usage

```
get_config(  
  config_path = system.file("configs/docreview.yml", package = "docreview", mustWork =  
    TRUE)  
)
```

Arguments

config_path	Path to config file
-------------	---------------------

Examples

```
# Get default configuration  
get_config()
```

package_review	<i>Review package documentation</i>
----------------	-------------------------------------

Description

Review package documentation

Usage

```
package_review(path = ".", config = get_config())
```

Arguments

path	Path to package
config	Review check configuration

Examples

```
pkg_path <- system.file("testpkg", package = "docreview")  
package_review(pkg_path)
```

vignette_review	<i>Review vignettes</i>
-----------------	-------------------------

Description

Review vignettes

Usage

```
vignette_review(path, checks = get_config()$vignettes)
```

Arguments

path	Path to package
checks	Checks to run
